Summary	<div>Driven and detail-oriented Full-Stack Developer specializing in the MERN stack and React Native, with a strong foundation in building scalable web and mobile applications.</div> <div>Passionate about crafting seamless user experiences and optimizing performance through cutting-edge technologies. Experienced in collaborating with cross-functional teams to deliver high-quality, impactful products. Continuously learning and adapting to new tools and frameworks to enhance efficiency and innovation in software development.</div>	
Experience	<div><div>TechMauri</div><div>ReactJs Intern</div></div>	<div>03/2022 - 09/2022</div> <div>Lagankhel</div>
	<div><div>Wolfmatrix Pvt. Ltd</div><div>MERN Stack and React Native Developer</div></div>	<div>September - Present</div> <div>Sanepa</div>
Education	<div><div>National School of Science</div><div>2.4</div></div>	<div>2017 - 2019</div> <div>+2</div>
	<div><div>NIST</div><div>3.4</div></div>	<div>2019 - 2024</div> <div>Bachelor</div>
Projects	<div><div>Hotel Reservations System (MERN Stack)</div><div>A comprehensive platform allowing users to browse available rooms, make reservations, and manage bookings. Likely includes user authentication, room categorization, date selection with availability checking, payment processing, and an admin dashboard for hotel staff to manage bookings and room inventory.</div><div>Note Zipper (MERN Stack)</div><div>A feature-rich note-taking application that lets users create, edit, organize, and delete notes. Probably includes user authentication, markdown support, search functionality, tags/categories for organization, and cloud synchronization for accessing notes across devices.</div><div>SocioLife (MERN Stack)</div><div>A social networking platform with user profiles, friend/connection features, post creation with media support, commenting and reaction capabilities, real-time notifications, and possibly private messaging functionality. Likely includes a news feed algorithm to show relevant content.</div><div>E-commerce Website and App (SERN Stack & React Native)</div><div>A full-featured online shopping platform with both web and mobile interfaces. Includes product listings, user accounts, search and filter capabilities, shopping cart, secure checkout, payment processing, and order management. The mobile app likely provides a native shopping experience optimized for smartphones.</div><div>Furniture App (React Native)</div><div>A mobile application for browsing and purchasing furniture. May include features like AR visualization to see furniture in your space, product categorization, detailed product information, favoriting items, and purchase functionality. Could also include interior design inspiration or room planning tools.</div><div>Kharcha (React Native, on Play Store)</div><div>An expense tracking and budget management application that helps users monitor spending, create budgets, categorize expenses, generate financial reports and visualizations, set financial goals, and possibly includes receipt scanning functionality. The name "Kharcha" (meaning expense) suggests a focus on personal finance management for Nepali users.</div></div>
