Professional Summary

Driven and detail-oriented Full-Stack Developer with expertise in **MERN stack** and **React Native**. Demonstrated proficiency in building scalable web and mobile applications with modern architectures. Passionate about crafting seamless user experiences and optimizing application performance through cutting-edge technologies. Experienced in collaborating with cross-functional teams to deliver high-quality, impactful products. Continuously learning and adapting to emerging frameworks and best practices to drive innovation in software development.

Professional Experience

MERN Stack & React Native Developer

Sep 2022 – Nov 2025

Wolfmatrix Pvt. Ltd — Sanepa

- Developed and maintained full-stack applications using MERN stack and React Native
- Collaborated with design and product teams to implement user-centric solutions
- Optimized application performance and implemented scalable architectures

Full-Stack Developer

Dec 2025 – Present

KidnCode (Ed-Tech Platform)

- Working on LMS, enrollment systems, scheduling, payment integrations, and branch-based access control
- Building and maintaining React, React Native, Node, and SQL-based systems
- Enhancing performance, security, and automation across the platform

Education

Bachelor's Degree

2019 – 2024

NIST — GPA: 3.4/4.0

Higher Secondary Education (+2)

2017 – 2019

National School of Science

Key Projects

Hotel Reservations System — MERN Stack

Comprehensive platform enabling users to browse rooms, make reservations, and manage bookings. Implemented secure authentication, real-time availability checking, integrated payment processing, and administrative dashboard for hotel management.

Note Zipper — Node JS & React

Advanced note-taking application featuring user authentication, markdown support, intelligent search functionality, tag-based organization, and seamless cloud synchronization for cross-device accessibility.

SocioLife — MERN Stack

Dynamic social networking platform with comprehensive user profiles, interactive posts, real-time reactions, push notifications, and instant messaging capabilities.

E-commerce Platform — *MySQL, React & React Native*

Full-featured shopping ecosystem with advanced search and filtering, shopping cart functionality, secure checkout process, multiple payment gateways, and comprehensive order management system.

Furniture App — *React Native*

Innovative furniture shopping application featuring AR visualization technology, intuitive product categorization, and streamlined purchase workflows.

Kharcha — *React Native (Published on Play Store)*

Localized expense tracking and budgeting application designed for Nepali users, featuring comprehensive financial reports, goal setting, and intelligent receipt scanning capabilities.

KidnCode (Learning Management System) — *React, Node, SQL*

A comprehensive LMS designed for managing online classes, student enrollments, course materials, and progress tracking. Includes role-based dashboards, automated notifications, and seamless class scheduling.

Lodbod (Shipment Management System) — *NestJS, React, React Native, SQL*

A robust logistics and shipment management solution enabling real-time shipment tracking, warehouse management, delivery status updates, and mobile app support for delivery personnel.

Technical Skills

Frontend:

JavaScript, TypeScript
React.js, HTML5, CSS3

Backend:

Node.js, Express.js, NestJS
RESTful APIs

Mobile:

React Native

Databases:

MongoDB, MySQL, SQL

Tools & Others:

Postman, npm/yarn, Docker
AWS basics, Linux

Version Control:

Git, GitHub

Languages

Nepali: Native — English: Fluent

Interests & Activities

Continuous Learning — Technology Innovation — Mobile App Development — Travel & Cultural Exploration
